

Events & Corona

ID Management & Access Control

With the myEGO infrastructure, we make it possible for your live event to take place safely and effectively, even in corona times - verified data for a secure event and fast access management.

4 Steps for more safety on site

1. Online Registration

and ticket booking in advance for your event 2021

2. ID Management

The booked ticket is linked to the linked to the verified ID card

3. Secure Data Transfer

The user can submit additional documents for faster access (e.g. vaccination confirmation, test result)

4. Individual QR Code

User receives special QR code from organizer for effective access regulation on site (e.g. test required - yes/no)

Two Products - tailored to your requirements

SMART

Data transfer and integration in your own system

PREMIUM

Data management with QR code access control (data: ID card, vaccination certificate, Corona test result, among others)
